Division of Blind Services (DBS) Clients
Conducted for
The Florida Rehabilitation Council for the Blind

Beginning in 2004, the Florida Rehabilitation Council for the Blind decided to collect customer satisfaction data on a more “real time” basis. Rather than conduct one survey that included all of the clients who had their cases closed the preceding year, the Council decided to have the data collected on a monthly basis and review the results at their quarterly meetings. This report summarizes the data collected for the 2022-23 fiscal year. This report includes closed cases between July 1, 2022, and June 30, 2023. The Customer Satisfaction Survey of former Division of Blind Services (DBS) clients gathers perspectives of former DBS clients concerning program services, levels of satisfaction, and areas for program improvement. This report describes the methods used and presents the 2022-23 results for clients with cases closed between July 1, 2022, and June 30, 2023. In the Fall of 2009, the Florida Rehabilitation Council for the Blind modified the previous survey to streamline the interviews and update information in new areas. Some minor modifications to this survey took place in October 2010. Many of the items remained comparable or identical to the survey administered the previous 10 years. In these instances, data for the ten previous years are provided for comparison purposes. For new questions, major modifications made to question wording, or questions asked of different populations (new screens), no comparisons to prior years can be made. In 2015, the fiscal year changed from the months of April through March to the months of July through June. Data collected after 2014 is based on the new schedule.

Beginning in July of 2017, the Florida Rehabilitation Council for the Blind included questions regarding local service providers in addition to DBS.

SURVEY PROCEDURES

Population Surveyed. The Florida State University Survey Foundry (FSUSF), Institute of Science and Public Affairs, conducted a telephone survey of former Division of Blind Services (DBS) clients on a monthly basis. Employment-bound clients with cases “closed” between July 1, 2022, and June 30, 2023, comprises the population surveyed for this year-end report. DBS provided the names, addresses, phone numbers and demographic information for 1017 former clients. Case closures are classified into two major groupings, those with successful and unsuccessful closures. Among successful closure groups, we include clients whose case status is post closure.

Successful Closure – 703 Clients (116 Post Closure Clients)
Closure Status 26

Unsuccessful Closure -- 314 Clients
Closure Status 28 –Unsuccessful after plan

Survey Instrument. Originally, the Florida Rehabilitation Council for the Blind, in conjunction with FSU Survey Research Laboratory staff, developed the questionnaire in 2002. The FSU Survey Research Laboratory staff and the Council met and refined the questionnaire in the Fall of 2009. A couple of minor modifications to help the flow of the survey were made in October 2010. Major changes that included the addition of questions regarding local service providers occurred in July 2017 (Appendix A contains the 2022-2023 Instrument). Many of the questions asked about the most and least helpful program services remain “open-ended.” This allows the clients to tell us in their own words about their views and record their responses. The survey instrument continues to be translated into Spanish. Changes to the 2009-10 DBS Customer Survey instrument include:

- **Training Questions.** Changes to questions concerning training experiences were minor, replacing the term DBS staff to focus on the DBS counselor more clearly. In order to make the interview process smoother, respondents were asked specifically if they participated in a particular training program (screened). If they answered “Yes,” then they were asked about their experience. In the prior version of the survey, respondents had to tell us that they did not receive training.
- **Employment Questions.** To better focus the questions about employment, a new question asking whether or not they sought services to maintain or obtain employment. Only clients seeking employment services were asked a series of questions about employment training and satisfaction with their current job. Clients were also asked if they received a formal Vocational Evaluation and whether or not they were provided with the results of that Evaluation.
- **Respondent Characteristics.** Questions about the specific services they received and whether they were a new or previous client of DBS were added.
- **Case Closure.** When asked the open-ended question about why the client left the program, a number of them reported they did not know their case was closed. A new question to specifically ask the clients about their case closure was added.
- **Types of Services Received.** A new series of questions asked clients whether they received the following services:
 - Medical services
 - Assistance with education
 - Technical aids, equipment and/or software
 - Training in independent living skills.
- **Rights and Responsibilities.** A question was added concerning the DBS Counselor informing them of their rights and responsibilities as a VR client.

Fieldwork. Paid interviewers are trained and monitored for this survey effort. The training explains program requirements, services, and helps develop the probes. Fieldwork is conducted in an ongoing manner. At the beginning of each month, the DBS sends a list of clients whose cases have been closed during the previous month. Interviewers then try to reach the clients. At least five attempts are made to reach the former DBS clients. Calls are rotated at various times of the day and attempted during the week and weekends in order to maximize the chances of reaching the former client. Starting from 2019, voicemail is used to leave a message on clients' answering machine and allow them to call the FSU Survey Foundry for interview appointments at their own convenience or ask any questions related to the phone survey.

Nonworking numbers. When conducting a survey of former clients in any program, telephone numbers are often wrong: Clients move and the numbers are no longer in service; agency databases may not be updated at the time of case closure, and the like. Seven percent (71 of 1017) of the telephone numbers attempted from July 1, 2022, to June 30, 2023, were nonworking. This is a much smaller percentage compared to the proportion of non-working numbers than in previous years: 2021- 17%, 2020 – 5%, 2019 – 8%, 2018 – 8%, 2017 – 10%, 2016 – 13%, 2015 – 16%; 2014 - 16%; 2013 - 15%; 2012 - 17%; 2011 - 20%; 2010 - 22%; 2009 - 25%; 2008 - 29%; 2007 - 30% and 2006 - 30%. In 2005, 38 percent of the numbers were non-working. However, we have a great portion of phone numbers that have been answering machine all the time during our attempts. During the current year, more than one quarter (26%) of the phone numbers are answering machine numbers.

Sample Characteristics. The combined efforts of repeated attempts, callbacks, and obtaining new numbers resulted in completed interviews for 34% (n=342) of former clients (n=1,017) who left the program between July 1, 2022, and June 30, 2023. This response rate is a large increase from the previous two year's response rate (21% in 2021, 31% in 2020 and 30% in 2019) and is also higher than other years [2018 – 30%, 2017-24%, 2016-28%, 2015-36%, 2014-25%, 2013-28%, 2012-35%, 2011-36%, 2010-30%; 2009-35%; 2008-31%; 2007-36%, 2006 – 36%].

The response rates differ for those clients with cases successfully closed compared to unsuccessful closures. Response rates are higher for successful clients than for clients with unsuccessful case closures during most of the years. For the current 2022-23 Customer Satisfaction Survey, thirty-seven percent of clients with successful case closure status (258 of 703) completed an interview while twenty-seven percent of the former DBS clients with unsuccessful case closure status (84 of 314) completed the survey. Last year, Twenty-one percent of clients with successfully closed case participated the interview. [2020 – 35%, 2019 – 36%, 2018 – 33%, 2017-25%, 2016-30%, 2015-41%, 2014-21%, 2013-44%, 2012-40%, 2011-45%, 2010-37%; 2009-43%; 2008-40%; 2007-40%].

The survey refusal rate has been increasing in recent years. Twenty-one percent of the potential respondents declined to participate (214 of 1017) in the Customer Survey, compared to 15 percent in the previous year. The refusal rate has significantly increased from the previous year (15%, 2021; 14%, 2020). The consistent increase in refusal rates and the acceleration of refusals in the past three decades is a concern to the field of survey. Refusal rates are typically low for this Customer Survey before 2017. [2019 – 17%, 2018 – 24%, 2017-14%, 2016-10%, 2015-10%, 2014-10%, 2013-11%, 2012-11%, 2011-11%].

Data Preparation and Analysis. FSU Survey Foundry staff coded the open-ended data and used SPSS statistics to analyze the frequencies and patterns of responses. Besides reporting the data collected for the period between July 1, 2022, and June 30, 2023, this report provides comparative data between the other years surveyed: 2021, 2020, 2019, 2017, 2016, 2015, 2014, 2013, 2012, 2011, 2010, 2009, and 2008 when survey items are comparable.

SURVEY RESPONDENTS & PROGRAM CHARACTERISTICS

Survey Respondent Characteristics

Most of the respondents have received services from both DBS and local service providers. Among the 1104 DBS clients, 1021 clients have received services from both DBS and local service providers while eighty-three clients only received DBS services. Among the 233 responding clients, 214 clients surveyed received services from both DBS and local vendors, while nineteen clients only received services from DBS.

Clients participating in the survey received technical aid, equipment, and software more than training, medical services, and assistance with education from DBS. (Q20 Appendix A) The respondents received:

- Technical aids, equipment, and/or software – 72%
- Training that allows you find your way around, cooking, personal management, and the like at the Rehabilitation Center (this option has been edited in 2017) – 47%
- Medical services – 45%
- Assistance with education – 33%

Local service providers provided client respondents the following services:

- Technical aids, equipment, and/or software – 72%
- Training that allows you find your way around, cooking, personal management, and the like – 59%

More than one third of the respondents (32%) said they sought DBS services to obtain new employment. Thirty-three percent of the respondents sought DBS services to maintain their current job, seven percent sought to advance their current employment, while twenty eight percent sought services for other reasons. More clients contacted DBS for services to obtain jobs than maintain their jobs compared with previous years. (See Q29 Appendix A for details)

Case Closure Status. A much higher number of respondents whose cases were closed successfully (75%) participated in the 2022-23 Customer Satisfaction Survey than those whose cases were closed unsuccessfully (25%). Clients whose case status is post closure (n=116) are grouped into the successful closure category.

Learning about the Program

Clients hear about DBS services through the medical community and family or friends.

When asked how they heard about and knew how to contact DBS for services seventeen percent of the clients mentioned they either are previous DBS clients or have been in the program for a long time. Twenty-one percent of the former clients identified people in the medical community and one quarter of the respondents said they learned about DBS through family or friends. Other sources of information about DBS services included agencies, school contacts, the media, and associations. Nine percent of all former clients said they had heard about DBS services from agencies and twelve percent stated they learned about DBS through general information. This was an open-ended question. The following lists the proportion of clients identifying how they learned about the program grouped by major category. (Q1 Appendix A, open-ended question).

Counselor Responsiveness

Division of Blind Services (DBS) counselors are responsive to clients. Former clients answered questions to rate their experiences with DBS counselors. The questions from the previous version of the Customer Survey administered between 2002 and 2008 were modified slightly. In previous years, the question was a bit more general and asked about “DBS staff;” in the new survey it was a bit more specific and refers to “DBS Counselors.” Prior years’ results are listed for comparative purposes.

Overall, DBS clients expressed satisfaction concerning their experiences and contact with program staff. The satisfaction level of client’s experiences with counselors decreased this year in most of the evaluation categories compared with the previous year data.

Ninety-two percent of responding clients felt welcome when they first contacted DBS. (Q3 Appendix A). In 2021, 96% of the former clients felt welcome when they first contacted DBS. In 2019, 95% of responding clients gave positive answers to this question.

Experiences with Counselors. “DBS counselors were responsive to their requests for services” received the lowest rating with 87 percent of clients reporting that their contact experiences with DBS were easy during “all or most of the time” (Q2, Q4, Q5, Q6, Q10, Q13, Appendix A).

- DBS counselors informed them of rights and responsibilities as a client of the VR program
2022-2023 - 95% (2021 - 89%) (2020 – 90%) (2019 – 94%) (2018 – 92%) (2017– 91%) (2016–96%) (2015–94%) (2014–87%) (2013–95%) (2012–93%) (2011–92%) (2010–91%) (2009–92%)

- DBS counselors were respectful and responsive to their interests, ideas, and suggestions
2022- 2023 - 91% (2021- 90%) (2020 – 91%) (2019 – 90%) (2018 – 87%) (2017– 81%) (2016–84%) (2015–83%) (2014–84%) (2013–86%) (2012–85%) (2011–86%) (2010-85%) (2009–87%) (2008–83%) (2007–85%) (2006–85%) (2005–89%) (2004– 87%) (2003–84%) (2002–85%)

Contacts with DBS Staff. For the year 2022-2023, ninety-six percent of the 319 clients responding reported that they tried to contact their DBS counselor. (Q7 and Q8, Appendix A)

- Clients able to reach counselor all or most of the time
2022 – 2023 – 82% (2021- 86%) (2020 – 86%) (2019 – 79%) (2018 – 78%) (2017-74%) (2016–71%) (2015–74%) (2014–74%) (2013–75%) (2012–78%) (2011–77%) (2010–82%) (2009–82%) (2008–82%) (2007–82%) (2006–81%) (2005–81%) (2004–84%) (2003–82%) (2002–83%)

When clients were able to reach counselors, counselors got back to them in a timely manner “All or Most of the Time.” This question was made a bit more specific in 2008-09 by specifying “timely manner” as “2 working days”.

- Counselor gets back in two working days
2022 – 2023 – 87% (2021- 89%) (2020 – 89%) (2019 – 81%) (2018 – 80%) (2017-70%)(2016–78%) (2015–79%) (2014–82%) (2013–82%) (2012–78%) (2011–80%) (2010–84%) (2009–84%) (2008–83%) (2007–86%) (2006–85%) (2005–85%) (2004–85%) (2003–85%) (2002–89%)

Opportunity for Input into Goals and Plans. Most clients feel they have adequate opportunity for input when establishing their goals and steps to achieve them. Some of the questions capturing goals were re-worded in the 2017-2018 survey. (See Q11-Q14 Appendix A) Clients report their input was “Very Adequate or Adequate” when:

- Planning specific independent living services (Establishing steps to achieve independent living goals, before 2017)
2022 – 2023 – 93% (2021- 77%) (2020 – 95%) (2019 – 92%) (2018 – 90%) (2017–87%) (2016–90%) (2015–92%) (2014–92%) (2013–95%) (2012–93%) (2011–91%) (2010–90%) (2009–92%) (2008–93%) (2007–92%) (2006–90%) (2005–94%) (2004–94%) (2003–90%) (2002–90%)

(2010–89%) (2009–89%) (2008–92%) (2007–92%) (2006–88%) (2005–90%) (2004–91%) (2003–87%) (2002–90%)

- Planning specific services to achieve vocational goals (Establishing steps to achieve vocational goals, before 2017)
2022 – 2023 – 91% (2021- 84%) (2020 – 89%) (2019 – 87%) (2018 – 89%) (2017–84%) (2016–90%) (2015–88%) (2014–90%) (2013–91%) (2012–88%) (2011–86%) (2010–88%) (2009–89%) (2008–90%) (2007–92%) (2006–88%) (2005–91%) (2004–91%) (2003–87%) (2002-87%)

Services Identified by Plan. Over three quarters of the clients said that DBS or local service provider make certain they received the services identified in the plan “All of the Time” or “Most of the time.” (Q13 Appendix A)

- Received Services Identified in Plan
2022 – 2023 – 89%(2021- 88%) (2020 – 91%) (2019 – 90%) (2018 – 86%) (2017–83%) (2016–63%) (2015–64%) (2014–51%) (2013–60%) (2012–83%) (2011–82%) (2010–84%) (2009–84%) (2008–84%) (2007–89%) (2006–82%) (2005–88%) (2004–86%) (2003–84%) (2002–85%)

Local Service Provider Responsiveness

Experience with Local Service Providers. Starting from 2017, former DBS clients are asked to respond whether they felt welcome when they first contacted their local service providers. Ninety-six percent of the respondents expressed their satisfaction on this question (Q3a Appendix A), which is much lower than the previous year (91%), 98% in the year 2019.

DBS clients showed their high satisfaction level with the local service providers during the year 2022-23 (Q2a, Q4a, Q5a, Appendix A).

QUALITY OF SERVICES

The customer satisfaction survey includes a number of items related to the types and quality of services provided by the Division of Blind Services (DBS): Clients were asked about the materials provided, options suggested, transportation services, equipment, and training.

Materials Provided in Accessible Formats. Both DBS and local service provider provided materials in more accessible format during the year of 2022-23 (Q16 and Q16a Appendix A). Ninety four percent of all DBS clients received materials in an accessible format [2021 – 89%, 2020 – 88%, 2019 – 89%, 2018 – 89%, 2017-85%, 2016-80%, 2015-78%, 2014-87%, 2013-84%, 2012-81%, 2011-71%, 2010-70%; 2009-78%; 2008-83%; 2007-85%].

Local service providers provided materials in accessible formats 94% of the time. [2021 – 83%, 2020 – 87%, 2019 – 87%, 2018 – 89%, 2017-83%]

Transportation Needs. The question was slightly reworded in 2017 (Q15 Appendix A). Eighty eight percent of clients strongly agree or agree that transportation options provided fully allowed them to participate in their plans for 2022-2023, which is much higher than the previous years. [2021 – 61%, 2020 – 86%, 2019 – 82%, 2018- 85%, 2017-84%].

Equipment Needs Generally Met. Clients felt that DBS provided tools and equipment that help solve problems and allow them to work independently (Q17 Appendix A). During 2022-23, 91 percent of the clients “Strongly Agreed or Agreed” that DBS counselors provided equipment or accommodations they need for training or employment. In 2022, 91 percent strongly agreed or agreed, compared to 84 percent in 2021, 89% in 2020, 87% in 2019, 88% in 2018, 78% in 2017, 84% in 2016, 86 % in 2015, 91% in 2014, 90% in 2013, 88% in 2012, 84% in 2011, 82% in 2010, and 85% in 2009. This survey question was changed in 2009, so comparisons with responses prior to 2009 cannot be made.

Training: Participation and Satisfaction

Participation in Training. The Customer Satisfaction Survey asked clients how satisfied they were with the training they received in a number of areas. Beginning with the 2009-2010 survey a specific question asking whether or not the client received training in the area was added to the instrument and then those who received the training were asked to rate it. In the previous version of the survey all clients were asked to rate the training and those telling us they did not receive the training did not rate the training. The independent living skills and orientation and mobility questions were changed in 2009 so that comparison with prior year ratings is not available. In the other areas, comparisons with previous years can be made.

Local service provider provided most of the technology training. More than one third of the respondents (46%) received technology training, such as computer skills or using software from a local service provider (2021-41%) while 18% of the clients received this type of training from the DBS (2021-16%). Eleven percent of the respondents said that they received training from other agencies (2021-3%). Twenty-six percent of the clients said they did not receive the technology training (2021- 27%) (Q18 Appendix A).

EMPLOYMENT SERVICES

Employment is a major goal of DBS services. Beginning in 2009-10 Customer Survey revisions streamlined and focused the employment questions more clearly. Therefore, comparisons with previous years are not appropriate due to the different client bases requested. In the previous surveys, clients with vocational goals in their plan or employed since leaving DBS answered questions about experiences with employment services provided by DBS. The revised survey instrument asked the questions based on whether clients sought services to maintain their current job or to obtain employment (See Q31 – Q38 Appendix A).

Employment-related services received lower levels of customer satisfaction than other service areas. Other services and areas consistently receive higher ratings. Staff assistance in securing employment received the lowest of any service provided by DBS.

Clients Seeking Services to Obtain Employment. About one third of the 325 (32%) responding clients sought services to obtain employment. [2021 – 37%, 2020 – 29%, 2019 – 40%, 2018 – 43%, 2017-51%] and twenty-eight of the survey participants became a client for other reasons [2021 – 39%, 2020 – 50%, 2019 – 23%, 2018 – 28%, 2017-34%] while seven percent of the clients contact DBS for services to advance their employment [2021 – 4%, 2020 – 4%, 2019 – 6%, 2018 – 6%, 2017 – 5%].

Clients Seeking Services to Maintain their Current Employment. Thirty three percent (108 of 325) of the responding clients sought DBS services to maintain their current employment when they became a client of DBS [2021 – 43%, 2020 – 14%, 2019 – 31%, 2018 – 21%, 2017-10%]. When asked if the DBS services or Local Service Providers helped them maintain their job, 89% percent (110 out of 123 responding clients) “Strongly Agreed” or “Agreed” that services provide by DBS and local service providers helped them maintain their jobs [2021 – 92%, 2020 – 77%, 2019 – 94%, 2018 – 92%, 2017-68%].

PROGRAM OUTCOMES

The Customer Satisfaction Survey explored the level of satisfaction with the program as well as identified the program characteristics clients found most helpful and least helpful. Clients also responded to questions on how DBS could improve its services. These were questions asked in an open-ended format and later coded and grouped into major categories. Details about open-ended questions can be located in the open-ended question report.

Overall Satisfaction

Client satisfaction with the DBS program is high. To gauge the overall level of satisfaction with the DBS program, former clients answered questions on if they would recommend DBS services to others. During 2022-23, 96 percent (317 of 331) of the responding clients said, “Yes”, they would recommend DBS services to others. Clients were also asked to rate their overall satisfaction with the program. During 2022-23, 92 percent of responding clients (138 of 266) were either “Satisfied” or “Very Satisfied with the DBS program. Started in 2017, former clients are also asked to evaluate their local service providers separately from DBS. (Q51 to Q54, Appendix A)

Overall Satisfaction by Case Closure Status. When we look at the overall satisfaction level of the clients with their case closure status, clients who have successfully closed cases tend to have a higher satisfaction level towards DBS service. However, clients who have unsuccessfully closed cases tend to have a higher satisfaction level with their local vendors.

Ninety-six percent of the former clients whose case are successfully closed said they are either very satisfied or satisfied with the DBS program [2021 – 92%, 2020 – 96%, 2019 – 94%, 2018 – 92%, 2017-95%] while seventy-nine percent of the respondents expressed their satisfaction whose cases were closed unsuccessfully [2021 – 86%, 2020 – 76%, 2019 – 89%, 2018 – 74%, 2017-73%].

When clients answered questions to evaluate their local service providers, ninety-four percent of the clients whose case closed successfully are either very satisfied or satisfied with their local providers. [2021 – 86%, 2020 – 96%, 2019 – 96%, 2018 – 94%, 2017-92%] while seventy-seven percent of the clients whose case closed unsuccessfully expressed their satisfaction [2021 – 94%, 2020 – 88%, 2019 – 92%, 2018 – 95%, 2017-94%].

Reasons for Not Recommending DBS Services or local service providers. Few clients offered reasons for not recommending DBS services or services provided by local vendors to others.

Reasons for Leaving the Program. Former clients answered questions on why they left the program (Q47 Appendix A). Over one-third (35%) of the clients responding stated they left since they obtained employment [2021 – 28%, 2020 – 30%, 2019 – 33%, 2018 –37%, 2017- 19%]. Eight percent of the clients responding said they left because they received needed help [2021 – 8%, 2020 – 7%, 2019 – 12%, 2018 – 4%, 2017-10%]. Seven percent of the former clients left the program for transportation reasons, including moving to a different location [2021 – 8%, 2020 – 7%, 2019 – 6%, 2018 – 7%, 2017-8%]. Only three percent of the former clients left the program because of their counselors or staff [2021 – 1%, 2020 – 1%, 2019 – 2%, 2018 – 3%, 2017-7%) while twenty seven percent of the clients are still confused about why their cases were closed [2021 – 13%, 2020 – 27%, 2019 – 22%, 2018 – 17%, 2017- 20%]. In part, this question asked if dissatisfaction with services played a part in leaving the program. Dissatisfaction with services is rarely mentioned as a reason for leaving.

Confusion over Case Closure. In response to the question, “Why did you leave the blind services program? (That is why was your case “Closed”?),” a number of former clients (65 out of 245) were not aware that their cases were closed or expressed some other concern over their closure status. In the 2022-2023 survey, five percent (16 out of 329) responding clients who were asked if they were aware that their case had been closed responded “No” [2021 – 9%, 2020 – 9%, 2019 – 14%, 2018 – 7%, 2017-7%, 2016 – 11%], eighty-three percent responded “Yes” [2021 – 84%, 2020 – 83%, 2019 – 78%, 2018 – 81%, 2017-85%] (See Q44 in Appendix A).

Assessment of Program

Former clients answered a series of open-ended questions to assess the most helpful and least helpful program services they received. Another question asked what they would recommend improving DBS services. Former clients responded with incredibly positive responses about the program and its services.

Most Helpful Services. Training is the most cited helpful service. It is cited as 32 percent of the clients during 2022-23 survey, followed by Equipment or technology services (26%), employment service (10%), counselor or counselling services (4%) and medical services (6%). Seven percent of the respondents felt that everything is helpful. Another four percent of the clients mentioned that referring to local providers is the most helpful services from DBS.

DBS 2022-23 Survey

Hello, my name is _____. I am calling from the Florida State University Survey Foundry. May I speak to _____. The Florida Rehabilitation Council for the Blind has contracted with Florida State University to conduct this survey of DBS clients. The Governor independently appoints the Florida Rehabilitation Council for the Blind. The Council uses the survey as their tool to evaluate the quality of services delivered by the DBS and contracted agencies to identify any problem areas that the Council may wish to correct. Random selection took place to select participants to participate in this survey and your views are important in helping to assess this program. This is an opportunity for you to give feedback about the program and its services. This survey takes less than 15 minutes of your time. Your participation in this survey is voluntary and will not affect any of your program benefits. You may choose not to participate or to withdraw from the survey at any time. I can assure you that everything you tell us is confidential. The Council receives summary results. The only person who may hear your responses is my supervisor, who may be monitoring this call to evaluate my performance. Dr. Minna Jia is directing this survey, and we can provide you with her telephone number if you wish to contact her. You may direct questions on the survey to the FSU Survey Foundry at toll free number 1-888-585-4933.

For additional information on the Florida Rehabilitation Council for the Blind, please contact Brandis Hall at 1-850-245-9305.
